Overview

SF6P-FHM is an unmanaged PoE switch, which provides 4*10/100Base-TX PoE ports and 2*10/100Base-TX RJ45 uplink ports. The output PoE power of single port can be up to 30W, the total PoE power budget is 60W. Equipped with function of three working modes(DEFAULT, VLAN, CCTV) improves the transmit speed of cameras, makes it an ideal choice for application of IP-surveillance .
